

AGROBOOST Ca

AGROBOOST Ca, is a formulated suspension concentrate of calcium, an essential nutrient fortified with Zinc and Boron. Calcium is from chloride and nitrate free sources. The product is targeted to fulfill calcium requirement in a wide range of crops.

Product specifications

Physical Specifications

Contents	Specifications
Formulation type	Suspension Concentrate
Appearance	Milky slurry
pH (1%)	8.5-10.0
Density	1.70-1.80

Chemical Specifications

Contents	Specification (%)
Calcium (as Ca)	21.0
Boron (as B)	0.1
Zinc (as Zn)	1.5

Derived from: Calcium carbonate, Zinc oxide and Disodium Octaborate Tetrahydrate

Application Details

- Suitable for use in agriculture as foliar applications.

Application Dosage

- Foliar sprays: 30-50 fl oz per acre per application. Apply 3-4 times during fruit development stage

Key Benefits

- Fully water soluble formulation with highest content of Calcium.
- Stimulates translocation of nutrients from sink (leaves) to source (developing fruits).
- Plays a key role during fruit development stage in all crops.
- Improves cell division and elongation.
- Improves the skin thickness of fruits.
- Improves overall quality and shelf life of fruits.
