

AGROBOOST K

AGROBOOST -K , an unique first -ever formulation with dual benefits of enhancing nutrition to plants and activating plant physiological activities to overcome fungal pathogens. It is having highest content of potassium phosphite in water soluble form.

Product specifications

Physical Specifications

Contents	Specifications
Formulation type	Water soluble Powder
Appearance	Hygroscopic powder
pH (5%)	6.00-7.00
Solubility (5%. Min)	Clear Solution

Chemical Specifications

Contents	Specification (%)
Soluble Potash (K ₂ O)	20.0

Derived from: Potassium phosphite

Application Details

- Suitable for use in agriculture as foliar applications or fertigation.

Application Dosage

- Foliar sprays: 15-20 fluid oz per acre per application.
- Soil drenching: 30-50 oz per acre per application.

Key Benefits

- Fulfills crop requirement of potassium, a major nutrient
- Activates crop metabolic processes for optimal crop growth.
- Strengthen crops against abiotic stresses
- Reduces incidence of biotic stresses
- Improves marketable yield
